Draft ‘n’ Go

BY NW DESIGN STUDIO

CONSTRUCTION
DOCUMENTATION
PARTNER

FOR BUILDERS WITH A GROWING PIPELINE OF HOMES

More capacity. Clearer delivery. One partner.

Your construction documentation partner.

Built for residential builders delivering multiple homes each year. We deliver coordinated construction documentation, with flexible capacity and consistent standards across your project pipeline.

01

Flexible capacity

Construction documentation and Revit support that scale with your workload.

02

Pipeline visibility

A dedicated portal for phases, scope, due dates and revision tracking.

03

Design expertise

Separate design support through NW Design Studio for custom projects.

Your projects. Your standards.
Our construction documentation team.

Draft ‘n’ Go

BY NW DESIGN STUDIO

CONSTRUCTION
DOCUMENTATION
PARTNER

Built into your business.

We learn your standards, align with your team and help keep construction documentation moving across your project pipeline.

01

Construction documentation.

Coordinated construction drawing packages and Revit drafting, consultant information coordination, drawing reviews and revisions — delivered to the agreed scope.

02

Your portal. Your pipeline.

We build and maintain a dedicated project portal as part of our partnership. See project phases, agreed scope, due dates, priority deliverables and revision history in one shared workspace.

03 / DESIGN SUPPORT, WHEN REQUIRED

More possibility for your clients.

Through NW Design Studio, engage separate design support to customise a floor plan, refine a façade or develop a bespoke home. We can consult directly with your client, then carry the design decisions into documentation.

PROJECT BY PROJECT

A defined construction documentation scope for one project, overflow work or a busy period.

ONGOING PARTNERSHIP

A dedicated portal, agreed standards and ongoing construction documentation capacity across your pipeline.

Let’s get your pipeline moving.

Start a project or discuss a partnership.
